

WT201

Thermostate remote operation

Thermostate remote operation

The Milesight WT201 smart thermostat redefines HVAC control, employing LoRaWAN® technology for unparalleled convenience and energy efficiency

CHARACTERISTICS:

- Support intuitive 4.2-inch display, allowing for showing temperature and status of the room clearly
- Support the child lock function and anti-theft installation for safety reasons
- Support 4 temperature control modes and 3 fan modes for flexible temperature control
- Enabling real-time monitoring ensures timely alerts for sudden temperature changes
- Built-in temperature sensor, enabling environmental detection and accurate control
- Store locally 1000 historical records and support retransmission to prevent data loss
- Support most 24VAC HVAC system, including furnaces and air conditioners (2H/2C), heat pumps (4H/2C+1 stage AUX heat), boilers, and PTAC
- Support flexible adjustments based on time zones and summer/winter time catering to region differences
- Compatible with hotel room card systems for convenient remote management
- Equipped with NFC for one touch configuration
- Function well with standard LoRaWAN® gateways and network servers
- Compatible with Milesight IoT Cloud
- Supports Milesight D2D protocol to enable ultra-low latency control without gateway
- Supports multicast for control in bulk
- Adjust the room temperature manually or automatically with 4 working modes and allow up to 16 schedules for each mode
